RE: Rogers Telecommunications Tower, Sackville N.B.

Mr. Klein,

On behalf of the Municipality of Tantramar, I am writing to express our firm opposition to the proposed construction of a telecommunications tower located at 14 Crescent Street, Sackville N.B. (PID # 00963587).

We are deeply concerned about the potential negative impacts this tower would have on the health of our residents, their property values and their overall quality of life. The proposed location for this project is near our Lorne Street Storm Water Mitigation project, which will alleviate flooding of Lorne Street, Sackville during a 1 in 100-year storm event. Our Municipality has invested \$17 million in this project, which has been in the works for almost a decade and has taken meticulous planning, collaboration, and dedication of municipal, provincial and federal partners to complete this project.

While we respect that the current Sackville Zoning By-Law permits public utilities in all zones, we strongly request that you reconsider the proposed telecommunications tower at this location and explore alternative options that prioritize the health and well-being of our community. I encourage you to hold a public meeting to address resident concerns and consider a more suitable site for this project.

Thank you for your consideration.

Sincerely,

A handwritten signature in blue ink that reads "Andrew Black". The signature is written in a cursive, flowing style.

Andrew Black
Mayor
